

ACTIVITY 7

Express + MongoDB

branch name: activity-7-nodejs

ACTIVITY 7 - Express + MongoDB

Build a CRUD REST API for todos using Express + Mongoose + Atlas.

Endpoints:

- GET /todos — list all
- POST /todos — create one (validates title required)
- GET /todos/:id — read one (404 if missing)
- PUT /todos/:id — update one (404 if missing)
- DELETE /todos/:id — delete one (404 if missing)
